PROFESSIONAL SUMMARY

Experienced **SDET/QA Engineer** with **6.7 years** of expertise in **Automation Testing and Manual Testing** for web-based applications. Proficient in **Java, Selenium WebDriver**, and **BDD with Cucumber**, with hands-on experience in **TestNG, JUnit, Maven, Git, Jira**. Strong background in testing lifecycle activities, including **Functional, Regression, Smoke, Sanity**, and **Cross-Browser Testing**. Experienced in implementing CI/CD pipelines using Jenkins and GitHub for automated test execution and reporting.Demonstrated ability to deliver high-quality software in both **Agile (Scrum)** and **Waterfall** methodologies.

TECHNICAL SKILLS

Automation Tool	:	Selenium WebDriver
Language	:	Core Java
Frameworks	:	BDD(Cucumber) With Gherkin, TestNG, JUnit
Design Patterns / Approaches	:	Page Object Model (POM), Data-Driven Testing
Build/Project Management Tool	:	Maven
Source Code Management Tool	:	Git, GitHub
Methodologies	:	Agile(Scrum), Waterfall, SDLC
Defect Tracking Tool	:	JIRA
CI/CD Pipeline	:	Jenkins

EDUCATIONAL QUALIFICATIONS

- **Bachelor of Engineering** – Kalasalingam Institute of Technology, 2017 – **70.04%**
- **HSC** – 2013 – **86.4%**
- **SSLC** – 2011 – **80.6%**

WORK EXPERIENCE

Hexaware Technologies Limited.

Software Engineer

02-07-2021 to 21-03-2025

Project: *Air Canada – Website Testing*

- Performed automation and functional testing of the Air Canada website based on sprint stories.
- Actively participated in **sprint planning, daily stand-ups, and backlog grooming**.
- Designed and executed **test cases and automation scripts** using **Java + Selenium WebDriver**.
- Implemented **BDD framework with Cucumber with Gherkin** (Given-When-Then) – created feature files, step definitions, and reusable functions.

- Conducted **cross-browser testing** (Chrome, Firefox, Edge) for better user experience.
- Took ownership of end-to-end QA activities and contributed to CI/CD integration using **Maven** and **Git**.
- Designed and implemented **dynamic XPath locators** to identify complex web elements in Selenium WebDriver.
- Used **GitHub** for managing code changes, creating branches, and reviewing pull requests as part of team collaboration.
- Implemented **CI/CD** pipelines using **Jenkins** to automate test execution and report generation.

Alpha Cloud Labs Pvt Ltd.

Software Quality Engineer
12-08- 2018 – 17-06-2021
Project: *E-Learning Web Application*

- Performed both manual and automation testing of an online education platform.
- Developed and executed test cases using **Selenium WebDriver** and **Java**.
- Used **TestNG** for test grouping, prioritization, and parallel execution.
- Logged, tracked, and collaborated with developers to resolve defects in **Jira**.
- Participated in **Agile ceremonies**: sprint planning, retrospectives, and demos.
- Ensured **cross-browser compatibility** for enhanced user experience.

KEY ACHIEVEMENTS

- Successfully **automated 400+ test cases** using **Selenium WebDriver with Java**, improving regression cycle efficiency by **40%**.
- Recognized for managing **complete QA ownership** in critical releases, including **test planning, execution, and defect resolution** independently.
- Reduced **production defects by 30%** by implementing a robust **BDD framework** using **Cucumber**.
- Played an instrumental role in **cross-browser testing** across **Chrome, Firefox, and Edge**, ensuring consistent application performance.
- Proactively involved in **Agile sprint activities**, contributing to **sprint planning, backlog grooming**, and **daily stand-ups** across **50+ sprints.**
